

KEEP YOUR CHILDREN SAFE!

Please consider 'everyone' when you collect your child by car by avoiding parking over the school entrance and the entrance to driveways of our neighbours.

We are encouraging our children to adopt a healthy lifestyle and part of this is the promotion to be active and to walk as much as possible. You could help your child by parking in the club car park if you live outside the village then walking your child the short distance to school and walking if you live in the village.

I would very much appreciate your co operation. If anyone has any questions please do not hesitate to contact me.
